

370 S 700 – 70

Construction and associated equipment

- 370 S 700 – 70
 - Part Coding ring
 - Cavities 2+2
 - Cycle time 29,5s
 - Material MIM, POLYPOM 316 L D
 - Shot weight 44g
 - Removal with ML-S 6 and set down on conveyor belt

370 S 700 – 70

Highlight

- Application expertise powder injection moulding
 - Processing of MIM feedstock
 - Machine equipped for MIM processing
 - Fill simulation through partner Sigmasoft

370 S 700 – 70

- 370 S 700 – 70

- Partner
- Mold & fast calmp system
- Material
- Simulation
